Understanding the Impacts of Research Synthesis ...

Synthesize, Map, or Describe the Results. In the data synthesis section, you need to present the main findings of your evidence synthesis. As an evidence synthesis summarizes existing research, there are a number of ways in which you can synthesize results from your included studies. If the studies you have included in your evidence synthesis are sufficiently similar, or in other words homogenous, you can synthesize the data from these studies using a process called "meta-analysis".
