### Appropriation And Representation Feng Menglong

More broadly, Appropriation and Representation locates Feng Menglong's Sanyan in the cultural milieu of the late Ming, including the archaist movement in literature, literati marginality and anxieties, the subversive use of folk works, and the meiren xiangcao tradition—appropriating a female identity to express male frustration. Against this background, a rationale emerges for Feng's choice to elevate and promote the vernacular story while stepping back from an overt authorial role.
