File Type PDF Diabetes Management In Primary Care

Primary care physicians face many challenges when it comes to diabetes care, but with access to programs and resources within the community, they do not need to face these challenges alone.

Diabetes Prevention and Management in the Primary Care ...

No one in the know doubts that most

File Type PDF Diabetes Management In Primary Care

diabetes care is done by primary care providers. No more than 20% of people with diabetes ever see an endocrinologist, and there are not nearly enough endocrinologists to handle the ever-increasing number of people with diabetes. The vast majority of diabetes management is, and in my view should be, in the hands of generalists.
