Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Everything And More A Compact

"Everything and More is, in nearly every way, a gift. It's a thoughtful and witty 300-page testimonial to the qualities I never fully understood that mathematics possessed: Math is astonishing and full of 'shadowlands,' and—ultimately—stunning beauty." - Anthony Doerr, Boston Globe

Compact definition is - predominantly formed or filled : composed, made. How to use compact in a sentence.

Compact | Definition of Compact by Merriam-Webster

Everything and More: A Compact History of Infinity is more or less what its title promises. I found it well worth the (not insignificant) effort to plow through, and I recommend it to anyone interested in mathematical and/or intellectual history, or to anyone curious about how difficult mathematical concepts can be discussed in a lively and engaging way.
