The site itself is available in English, German, French, Italian, and Portuguese, and the catalog includes books in all languages. There's a heavy bias towards English-language works and translations, but the same is true of all the ebook download sites we've looked at here.

Fordson Major Engine

The front headlamps were mounted inside the grilles rather than externally to either side of the bonnet, as previously, and a new 'Fordson Super Major' badge graced the sides of the bonnet. Red wheel centres remained, as used previously, and the output of the engine was still 52hp, as on the Power Major.

The Fordson Super Major | Heritage Machines

The Fordson E27N Major was an upgrade to the Fordson N, and made in England from March 1945, having the same engine and transmission as the Model N, but in a new casting which allowed for a PTO and a hydraulic lift unit manufactured by either Smiths or Varley. The differential however was of completely new design.
