Natural Law Theory Today Due to these arguments against it, Natural Law Theory plays virtually no role in contemporary secular moral discourse (Rachels, 2007: 60). However, devout Christians number in the hundreds of millions in the world today and the Protestant and Catholic Churches are significant players in almost every country's moral discourse.

Natural Law Theory - An Explanation - Seven Pillars Institute

Natural law (Latin: *ius naturale*, *lex naturalis*) is a system of law based on a close observation of human nature, and based on values intrinsic to human nature that can be deduced and applied independent of positive law (the enacted laws of a state or society). According to natural law theory, all people have inherent rights, conferred not by act of legislation but by "God, nature, or reason."

The American Understanding of Natural Rights | Cato Institute

Liberal democracy assumes natural rights, and because natural rights require natural moral law, liberal democracy assumes a natural moral law—rights that the state is obligated to honor. The American Founders believed that this objective natural moral law, the foundation of natural rights, is best accounted for by the existence of God and can be known apart from Scripture.

Accordingly, the term 'natural law' denotes a natural order of things. 'Law' also connotes respectability: law is an order of things that people ought to respect. A natural law theory, in so far as it concerns human affairs, attempts to explain both what the natural law of the human world is and why and how we ought to respect it. However,
