your Saltwater System, a measured quantity of salt is dissolved in the pool water to make it slightly salty. This pool water is passed through the Saltwater System's electrolytic cell to produce chlorine which is dissolved instantly in the water. The chlorine instantly starts to destroy bacteria, viruses, algae and oxidizes other organic materials.

Krystal Clear Saltwater System CG-26667, 110-120V with GFCI

The salt/water ratio must be 3,000 to 3,500 for the Intex chlorine generator to produce the chlorine accurately. The Intex chlorine generator lights up green on the control panel when chlorine is produced. A red light tells you either the salt is too low or too high. Test the salt to determine what is needed.

Intex | Frequently Asked Questions

Question: I recently purchased the Intex Krystal Clear saltwater system for my pool. I was under the understanding that I simply add the sufficient amount of salt to my pool after I fill it up, run the pump for 24 hrs to let it fully dissolve and then turn on the system every day for the suggested amount of time on the timer at night, no more chemicals, and a clean pool. 4 days into it I woke ...
