Medicare in 1965 coincided with several favorable political and economic conditions.

This proposition states a correlation: To contend that Medicare passed because these factors converged would be too strong and essentially unprovable.

Political Issues:

Medicare & Medicaid.

Summary. Medicare is a social insurance

program administered by the United States

government, providing health insurance

coverage to people

who are aged 65 and

over, or who meet

other special criteria.

The program also funds residency training

programs for the vast

majority of physicians

in the United States.

Intentions Effects

The intention is good, but ignores the inescapable trade-off between certainty and speed. The rise of AIDS brought the problem into stark relief, as people faced an ugly death while the bureaucratic, rules-bound FDA denied them the only effective medicine, AZT, in order to make sure it didn't have harmful side effects.
