Shooting Black Powder Firearms | Reloading Black Powder ...

The F.T. Baker 12-bore double rifle. Shooting black powder cartridge double rifles is a splendid thing. The "express" rifles chambered in .360, .400, .450, .500 and .577 are accurate, have fairly mild recoil and even the rather plain rifles are truly works of art. The 8- and 4-bore large-bore rifles are only fun at reduced loads, as full-house charges of black powder and bullets from 875 grains to over 2,000 grains can produce frightful recoil.

Loading & Shooting | Black Powder Cartridge

The shooting of black powder cartridge rifles is a great challenge and one which has very few finite rules. It involves almost continual experimentation with old and new components and equipment. For short range hunting and target practice, simple and proven reloading methods will provide suitable ammunition and accuracy.

It burns very consistently without needing any sort of case filler and has a small enough granule size that it powder measures well. For blackpowder shooting I have settled on Swiss 11/2 Fg for the NRA BPCR Silhouette game. For NRA Long Range Target shooting with the .45-70 I use Swiss FFFg because it gives the cartridge extra oomph.

Accurate Shooting With Cast Bullets From 100 To 1000 Yards

Informative without the academic dryness of a "how to" manual. Author is probably the most knowledgeable and qualified to discuss the nuances of the Black Powder Cartridge, the historical arms that fire these venerable rounds, and the range techniques needed to get them to go where they are pointed.

Amazon.com: Shooting the Black Powder Cartridge Rifle ...

Black Powder Pistols Generally Come Percussion-Fired. The final form of the musket/muzzleloaded gun - whether a pistol, rifle or blunderbuss - was the percussion-fired system, and most black powder pistols today are percussion-fired. To shoot, a percussion cap needs to be fitted to a nipple on the firearm.

Using black powder cartridges There is no mystery or difficulty producing cartridges once you have the powder and a police licence to store it at home. You must be sensible - it's very flammable, so no smoking or ignition sources. It is also a laxative, due to the sulphur content - so don't lick your fingers!

Black powder cartridges - Shooting UK

Sharps also fabricated special long-range target versions for the then-popular Creedmoor style of 1,000-yard (910 m) target shooting. Many modern black powder cartridge silhouette shooters use original and replica Sharps rifles to target metallic silhouettes cut in the shapes of animals at ranges up to 500 meters.

Sharps rifle - Wikipedia
